

## Heritage Partnerships Program in Arizona

*The National Park Service is about more than just parks. The Heritage Partnerships Program of the NPS Intermountain Region helps community groups, local, state and federal agencies, tribal governments, nonprofits, and individuals identify, recognize and preserve national treasures that are located outside of our system of national parks.*

**T**he Heritage Partnerships Program (HPP) offers a wide range of services that can be tailored to meet the needs of an individual project. NPS professional staff includes historians, historical architects, and archeologists who assist project leaders in the preservation of our Nation's most significant places. HPP helps communities and groups identify nationally significant resources; prepare National Historic Landmark (NHL) nominations and historical reports; conduct archeological and architectural surveys; complete treatment plans for stabilization and repair; and create planning and education materials.

HPP comprises several programs, including the National Historic Landmarks; Historic American Buildings Survey (HABS), Historic American Engineering Record (HAER), and Historic American Landscapes Survey (HALS) documentation programs; the National Heritage Areas Program; Historic Surplus Property Program; and the Japanese American Confinement Sites Grant Program. In 2016, HPP supported a variety of projects in Arizona, including:

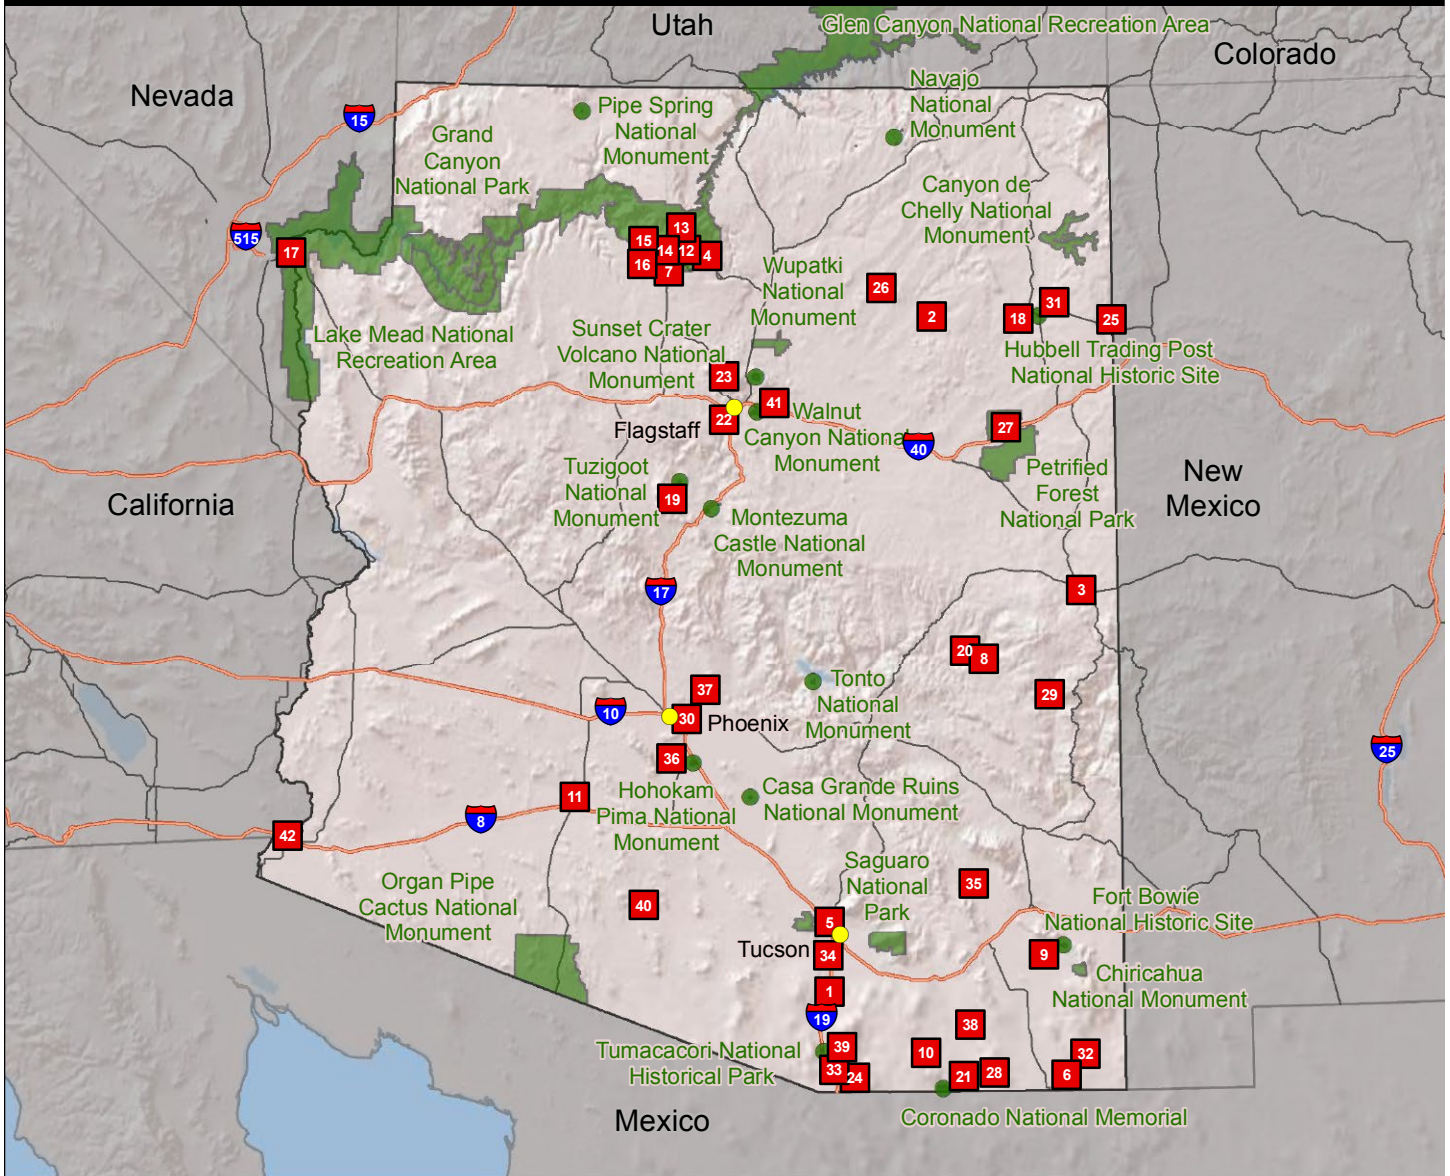

- **Painted Desert Community Complex NHL nomination, Apache County** – provided partial funding and technical assistance to complete an NHL nomination for the Painted Desert Community Complex in Petrified Forest National Park, nationally significant for its association with Mission 66 and for its design by renowned architects Richard Neutra and Robert Alexander.
- **Barrio Viejo Architectural Survey** – provided partial funding to the Tucson Historic Preservation Foundation to inventory and map all properties located in the Barrio Viejo historic district, a potential NHL significant as one of the largest concentrations of 19th century vernacular adobe Sonoran architecture in the United States.
- **Historic Structures Assessment and Stabilization for the Poston Elementary School Site, La Paz County** – With a Japanese American Confinement Sites grant, the Poston Community Alliance of Lafayette, CA, will assess the condition of the rapidly deteriorating elementary school buildings at the former Poston site and create a plan to stabilize and preserve these historic resources.

Poston Elementary School, Unit 1, Colorado River Relocation Center was designated as an NHL in 2012. Photo: NHL Nomination.
